**Week 1 – Tasks**

**Task 1:**
Show me who you are musically. Use words, pictures, a diary entry, computers, pencil and paper, colour etc. Show me what you know, what you play, what you like, your strengths in music.

**Task 2:**
Explain what you hope that you will get to do in music this year. What interests you? What you would like to learn? How you would like to learn it? What ways do you work best? What type of instruments would you like to work with?

**Task 3:**
Whole class: Examine the youtube clip as a class. Answer the questions on your Stomp analysis sheet.

**Task 4:**
Select your own Stomp or percussion clip. (You can work with a partner if you wish). Analyse the clip by selecting 3 different rhythm patterns that are repeated in the section of the clip you have chosen. Write the ostinato (repeated rhythm pattern) that you can hear. Also write the way that sound is produced for this pattern (e.g. tapping spoon on bench top). Do this for three patterns.

**Task 5:**
Prepare one of your patterns for playing to the group. You do not have to play it on the same equipment, but must produce a similar sound.

**Task 6:**
For next week, prepare a short piece that is a favourite to play on any instrument of your choice. You will need to be ready to do this on Wednesday 9th February.
